MADE RECORD AUTOMOBILE TRIP DOWN COAST TO MIAMI

The Mesdames A. and J. A. Kohler, of Boston, who left this city on Wednesday morning of last week in their Peerless touring car, for Miami, made the trip to that city in the record time of two days, so they state in a letter to friends here, but found the roads between this place and Palm Beach to be in very bad condition.

The ladies who are making a tour of the State, will return to Titusville and from there cross to Tampa by way of Sanford and Orlando.

STEAMER BURNS: ONE LIFE LOST

PORTLAND, Me., March 7 — One life is believed lost and ten passengers escaped in their night clothes today when the steamer Manhattan, of the Maine Steamship Company, was destroyed by fire here. The cause of the fire is unknown. The Manhattan arrived from New York at midnight. The loss is [illegible].

SURRICK LINCOLN GIVES TRAVELOGUE TONIGHT

"Alaska, Land of the Midnight Sun," will be the title of the Lincoln Travelogue, which will be given at the Daytona Opera House this evening at 8:15.

The Travelogue is illustrated with magnificent pictures taken by Mr. Lincoln himself, and finished in colors by James Faris, the world renowned artist, who accompanied Mr. Lincoln on one of his trips to Alaska.

The motion pictures introduced are really marvelous, so near to perfection are they that when looking at them it seems as if one were looking through a window at the actual scene depicted.

Wherever the Lincoln Travelogues have played, in the greatest auditoriums of the country, they have received nothing but favorable criticism, and are therefore recognized as the acme of perfection of productions dealing with American subjects.

The prices are much reduced, only Fifty and Thirty-five cents being charged, Mr. Lincoln presenting exactly the same program that he has given at all the great hotels under the Florida East Coast Hotel Co., at the rate of Two dollars a seat.

STRIKE MAY EXTEND TO OTHER CITIES.

NEARLY FIFTY THOUSAND MEN WERE OUT AT NOON, DECLARES CHAIRMAN HOPE.

PHILADELPHIA, March 7—There is a feeling here today that a general strike may extend to other cities. The threat of the authorities to arrest strike leaders under the old conspiracy law, and the fact that Federal troops are ready to enter the city, has angered the strikers and [illegible] leaders.

On the surface, the city is quiet and the police idle.

The latest suggestion is that the American Federation sanction a strike on all trolley lines, and other enterprises controlled by the Widener-Elkins-Dolan combination, regardless of location.

Chairman Hope, of the committee of ten, after a careful canvass, declared at noon there were 48,[illegible] men out.

Secretary of War, Dickinson, acting on a request from the Treasury Department today ordered General J. Franklin Bell, chief of staff, to prepare to send troops from Governor's Island and Fort Dupont to protect the United States mint here.

AUTOMOBILE EXPERIENCE ON ST. AUGUSTINE ROAD.

BIG MAXWELL TOURING CAR GOES DEEP IN MUD AND BUICK CLIMBS A TREE.

T. H. Cate, Jr., of Jacksonville, spent Friday night of last week with his parents at Holly Hill, having come down from Jacksonville with Mr. Jackson, of DeLand, in a new Buick car which that gentleman had just purchased and was bringing home. Mr. Cate was to accompany him as far as Ormond with the car.

They left Jacksonville Wednesday [illegible]

In the meantime the other party had reached Ormond, just about daybreak, and fearing something had befallen Messrs. Jackson and Cate, Mr. Maxwell sent another auto to their assistance, which found them engaged in cutting their way clear between the palmetto trees.

The Maxwell party remained at Ormond, while Mr. Cate came on to Holly Hill with Mr. Jackson, who was to continue his journey on to DeLand.

MOTOR CYCLE COUPLE HAVE RETURNED NORTH

Mr. and Mrs. E. H. Hall, of Cedar Rapids, Iowa, who have been boarding in Mrs. Spencer's cottage on North Beach street since the first of January, departed Saturday afternoon on their return north.

Mr. and Mrs. Hall won many friends during their stay here and will be recognized by many more Daytonians and all visitors, as the Motor cycle couple, having had the distinction of being the only motor cycle people in the city this season, although usually there have been quite a number.

Mr. Hall conducts a bicycle repair shop in Cedar Rapids and brought with an easy running motor cycle upon which he and Mrs. Hall have made many pleasant excursions, not only in the immediate vicinity of Daytona, as to Ormond and Port Orange, but also to New Smyrna, DeLand and elsewhere.

They are very much pleased with Daytona and expect to return next season.

...EY OLDFIELD, DARE-DEVIL AUTOMOBILE TRACK KING, ARRIVES IN DAYTONA.

...Big Benz Racer Will ...Towed Over From DeLand Today.

...ney Oldfield, the world's most ... automobile race driver is in ... The intrepid, death-daring, ... fate-tempting champion arrived ...day morning from Hot Springs, ... having stopped over in Jackson... on Saturday.

...Mrs. Oldfield accompanied Barney, ... Ben Kerscher, the noted German ... who is to drive the Vanderbilt ... winning Darracq in the races ..., also came in on the same train. ... Oldfields took possession of the ...gerald house on Halifax avenue ... the river and are preparing ... entertain a number of guests who ... coming from New York to see ... races.

Oldfield has not been to Daytona ... 1905, when he had the Peer... Green Dragon, the famous car ... unsuitable for successful beach ... although Oldfield had just broken all track records of the world with it in California. The year before it will be remembered, that Barney defeated Vanderbilt and his ...,000 Mercedes on the beach with ... Wilson Bullet, for the World's ... championship.

... Oldfield this morning, "Of ... I am glad to get back to Day... for the little city has always ... possessed a charm for me since my ... visit here. The Daytona Beach ... the only safe race course in the ... world, and while I am not a stickler ... safety and like to watch the ... fence posts of a circular track go by ... head, still I want to see how fast ... new Benz of mine can travel.

"I am here to win everything I can ... without being charged with being ... greedy, and I will send the great ... car along as fast as it will go. But I ... am strong for Daytona and I fought to ... have my match with the Fiat decided ... here. I refused to go to Los ... Angeles until I knew the Fiat was ... on the boat for Daytona and would ... race me here. Then I wired Los ... Angeles this morning that I would ... race there as soon as I get through ... here.

"I am going to ship my cars from ... here by express at a cost of nearly ...00, and the wealthy interests that ... control the Fiat can certainly afford ... to use express in preference to the ... freight, if I can do so. Therefore ... they offer a bad excuse for wanting ... to leave after the match race on the ...th, instead of staying for the regular speed carnival March 22 to 24.

"I am having the time of my young ... life here and I have always stopped ... in Daytona instead of Ormond and I ... have never had occasion to regret ... it. The Automobile Officials at the ... club are very kind to Mrs. Oldfield ... and myself."

Oldfield looks to be in fine physical condition and will be on the beach with his monster car tomorrow.

Chairman Hope, of the committee of ten, after a careful canvass declared at noon there were 48,230 men out.

Timothy Healy, president of the Stationery Firemen, declares he will call out the power plant firemen today, thus cutting off the trolley company's power. Company officials laugh at the threat declaring there are no union men in the power house.

Theatre men to the number of 300 have been ordered back to work by the Boston headquarters.

Two sticks of dynamite were exploded under a car at Nineteenth and Huntington avenue today. Twenty passengers were in the panic but none were hurt The police fired upon laborers nearby and a pitched battle ensued. The reserves were called out and two arrests made.

VISITS DAYTONA AGAIN AFTER 21 YEARS' ABSENCE.

COULD NOT RECOGNIZE IN THE BEAUTIFUL CITY OF TODAY THE VILLAGE LEFT AT THAT TIME.

Dr. F. C. Grace, wife and daughter, who arrived recently from Iowa, and are guests at the new Seaside Inn, at Daytona Beach, were at one time residents of Daytona and will be remembered by many of the older citizens . They removed from here about twenty-one years ago.

Dr. Grace practised dentistry at Port Orange for some time before coming to Daytona and while here was for a time in charge of a co-operative store and later bookkeeper for Wm. Jackson.

He built and occupied the house now owned by W. H. Edmondson, on Ridgewood avenue.

Dr. Grace says there has been a wonderful change in Daytona during his absence and he would never have recognized it as the same place, although some of the old land marks still remain.

Mr. and Mrs. W. H. Dye, of Van Wert, Ohio, who have been spending the winter on South Ridgewood avenue, are so impressed with the beauties of Daytona that they have decided to make it their future home, and with Mrs. Baker have purchased the Big Tree grounds. Mr. and Mrs. Dye will return North in a short time to make arrangements for locating here.

Dr. E. P. E. Sengstak and wife, of Jacksonville, spent Sunday with Mr. Sengstak's parents, Mr. and Mrs. Theo. Sengstak, at Daytona Beach.

AUTOMOBILE EXPERIENCE ON ST. AUGUSTINE ROAD.

BIG MAXWELL TOURING CAR GOES DEEP IN MUD AND BUICK CLIMBS A TREE.

T. H. Cave, Jr., of Jacksonville, spent Friday night of last week with his parents at Holly Hill. having come down from Jacksonville with Mr. Jackson, of DeLand, in a new Buick car which that gentleman had just purchased and was bringing home. Mr Cave was to accompany him as far as Ormond with the car.

They left Jacksonville Wednesday morning and took dinner at St. Augustine, leaving the the Ancient City at one o'clock, behind a big Maxwell touring car, containing President Briscoe, of the Maxwell-Briscoe Company, with his wife and daughter and another lady and gentleman and the chauffeur.

About twenty-five miles this side of St. Augustine the big car stuck hard and fast in a soft spot and blocked the roadway.

When the Buick overtook them, all hands worked for several hours in an effort to extricate the machine, but were unable to do so, and finally Mr. Briscoe returned on the road some eight miles in the Buick, with Mr. Cave, and secured a couple of mule teams to pull the big car out, which was accomplished at about midnight..

The ladies of the party good naturedly took the whole matter as a joke and made merry over it.

Later in the night, or rather in the morning, Mr. Cave noticed a soft spot where the Maxwell had apparently had more trouble and in trying to avoid it he ran the Buick between two palmetto trees and hung up there.

In the meantime the other party had reached Ormond, just about daybreak, and fearing something had befallen Messrs. Jackson and Cave, Mr. Maxwell sent another auto to their assistance, which found them engaged in cutting their way clear between the palmetto trees.

The Maxwell party remained at Ormond, while Mr. Cave came on to Holly Hill with Mr. Jackson, who was to continue his journey on to DeLand.

SURPRISE PARTY TENDERED COMMODORE C. STUBENBORD.

An exceedingly pleasant surprise party was tendered Com. Conrad Stubenbord and family at their home on North Ridgewood avenue, by a number of friends sojourning in the city. The party included the following:

Grant VanDuyn, Flatbush, Brooklyn; Linna Stubenbord, Coney Island; Mrs. W. F. Kaiser, Brooklyn; Valentine Neuberger, Brooklyn; M. Gueiszler and wife, New York; Henry Siefke and wife, Rockaway Beach, New York; Ferdinand Hosch, Rockaway, Beach; Edward Steube Coney Island; Henry Schorske and wife, New York; John G. Van Duyn, Flatbush; Conrad Stubenbord and wife, C. Stubenbord, Jr., and wife, Coney Island.

After spending a very enjoyable time the members of the party, escorted by the minstrel band returned to their respective hotels in the small hours Sunday morning.

Mr. and Mrs. J. W. Busby, of Shelby, Ohio, are making a short visit with D. F. Randolph and family on Second avenue. Mr. Busby, who is an old friend of Mr. Randolph, is very much pleased with Daytona and its surroundings.

ACCIDENT TO TOURING CAR SATURDAY AFTERNOON.

REAR AXLE BROKE WHILE RUNNING AT GOOD SPEED AND CAR SKIDDED SOME DISTANCE.

T. B. Collins met with an accident Saturday, shortly after noon while taking Howard Enson Harkshimer, of Jacksonville, from this city to Ormond in his (Mr. Collins') Rambler. touring car.

Owing to the muddy condition of the roads on this side of the river, Mr. Collins decided to take the dryer peninsula road and while running at a fair speed on Peninsula Drive Daytona Beach, the rear axle gave way.

The body of the car dropped lightly to the ground on that side, not dislodging the occupants, and the machine skidded for sixty or seventy feet before brought to a stop.

Mr. Harkesheimer returned to Daytona and ate dinner, before starting again for Ormond in another auto, and Mr. Collins 'disabled Rambler was towed to the Central Garage in this city for repairs and within six hours was running better than ever.

The break was caused by a flaw in the axle and Messrs Collins and Harkisheimer were very fortunate in escaping from what might have proven a serious affair.

ALLAN LINER STRIKES A HUGE DERELICT.

GLASCOW, March 7 — The Allen liner Ionian, from Boston, arrived today with a forty-foot hole in her bow as a result from striking a derelict Thursday night. A small panic occurred aboard .

MOTOR CYCLE COUPLE HAVE RETURNED NORTH

Mr. and Mrs. E. H. Hall, of Cedar Rapids, Iowa, who have been located in Mrs. Spencer's cottage on North Beach street since the first of January, departed Saturday afternoon on their return north.

Mr. and Mrs. Hall won mayn friends during their stay here and will be recognized by many more Daytonians and all visitors, as the Motor cycle couple, having had the distinction of being the only motor cycle people in the city this season, although usually there have been quite a number.

Mr. Hall conducts a bicycle repair shop in Cedar Rapids and brought south an easy running motor cycle upon which he and Mrs. Hall have made many pleasant excursions, not only in the immediate vicinity of Daytona, as to Ormond and Port Orange, but also to New Smyrna, DeLand and elsewhere.

They are very much pleased with Daytona and expect to return next season.

By L. C. DEMAREE.

One of Daytona's crowning glories is her incomparable beach. No one who ever set foot upon its smooth, packed sands; no one who ever pedaled a bicycle over its expanse; no one who ever drove a prancing pair of horses and listened to the popping of their steel shoes upon its asphaltum-like face; no one who ever steered a high-power automobile down the broad stretch of wave-washed and surf-packed sand but realized that it is a world-beater, a world-wonder. Go stand upon this wide speedway and see the happy souls flit by in joyous mood, and answer whether this is not one of the seven modern wonders.

The Placid, Pellucid Halifax River.

Where think you is water with more picturesque surroundings? Nearly a mile wide, fringed with tropical vegetation, artistic cottages with roomy verandas looking out upon her bosom, gamey food fishes in countless numbers beckoning, as it were, to those with rod and reel; her bosom flecked with duck and coot and snowy-winged sea birds, which sit about as if for the sport of bobbing upon the waves; watch that lubberly old white headed pelican pouch a fat mullet, and that fish hawk struggling upward with his floundering load he snatched from the water.

See the beautiful launches, spick and span, their hampers and lockers bulging with refreshments both solid and liquid ready for a cruise upon th beautiful surface. Take out your fiel glass and sweep the river from Ormondg bride to Ponce Park light house, then say whether the Halifax isn't a thing of beauty and a joy forever, and one of the modern wonders.

The Enchantingly Picturesque Ridgewood.

Ridgewood avenue is upon the crest of a broad ridge, straight as the crow flies and the wide spreading branches of the heavy-trunked live oaks extend their giant arms across the magnificent vista, forming an arch, and from these extended arms great festoons of Spanish moss sway as the trade winds from the tropic seas fan them. Looking straight ahead down this white shell street one has the impression of a fairy path with elfish draperies, but as you move along and cast an eye first to the right and then to the left you see distinguished cottage homes in t... most delightful settings.

See the glistening leaf of the grand magnolia which nature has varnished as no artists' brush ever could; and the cabbage palms with their burdens of showy fruit and swaying palms; see the lovely holly with its exquisite berry; see the climbing vines run riot in the trees; see the cryptogamous forms which gain a foothold on the great oaks and stately palms, and surely you will join in the chorus and say that this is a world wonder for beauty.

Surpassing Beauty of Our Cottage Homes.

No one of Daytona's attractions, perhaps, commands more nearly universal attention and praise than does the artistic cottages. The owners of these charming villas hail from every corner of the country and they bring their own architectural plans and build upon them, and, as the architecture of one section of the country differs from the architecture of another, so do our homes differ in outward appearance and structural beauty froi one another. There are no monotonous rows of strikingly similar buildings but the eye, as it sweeps by, is treated to a kaleidoscopic change which keeps the mind wondering, "What next?"

It is not only the exterior of many of these homes which rivets attention; within they are models of convenience, and the finishing and furnishing give evidence of the elegance and cultivation of those who worked it all out. Indeed, it is the interior arrangement and artistic furnishing and shading, more than the exterior appearance that gives a surpassing charm to Daytona homes. This feature justly merits prominence as another wonder.

Streets and Pavements the Most and Best.

Why the Architect of the Universe chose to give Daytona the most admirable, the most picturesque natural setting of all the cities of the South is not revealed, but that such is a fact must be apparent to the most superficial observer. With such lavish wealth of natural beauty it became an easy thing for the hand of man to give the finishing touches which have wrought out the colors and outlines of the big picture.

Man did all this in the laying out of the streets with their wide margins of parkage. The entire city becomes a great park, with driveways intersecting, miles upon miles of driveways so goo. as to attract motorists from all over the continent.

And as for the pavements, pavements that look and act like granite, —where else between the eastern and western seas are so many miles in proportion to inhabitants? The pavement question stands with the street as one of the chief drawing cards. Till some unheard of place reports more and better, Daytona throws down the gauntlet to the world.

Squirrels, Flowers, Birds and Frut.

Whatever oone's shortcomings and however indifferent or even callous one may be to many things, the mere mention of "flowers, and Squirrels, birds and fruits" will send a thrill that is reflected in distended pupils and pricked ears.

For every visitor with a spare goober there is a bunny ready to come and accept your gift. He will sit bolt upright and knaw into the meat, casting furtive, saucy glances at you meanwhile.

Flowers. Usually fresh and blooming the year 'round You are reminded of Goldsmith's couplet where

Smiling spring its earliest visit paid
And summer's lingering blossoms are delayed.

In one yard roses of varigated hues predominate; another household has a penchant for the poincetta and the premises are aflame; another is hidden in a jungle of tall cane. Variety is the spice of life and here is where you find it.

The birds flit in, and with their joyous notes help to give fullness and symmetry to the picture.

As for fruits, choice citrus fruits, Daytona yields the palm to none for quality and quantity per acre. There are scores of citrus groves in proximity to the city, branches bending to the earth with their burdens of luscious golden globes, which for beauty, proflicacy and all desirable qualities would truly astonish you.

The Fastest Autos and The Finest Out.

The seventh world wonder, do you ask? Come, whether from Missouri or from Maine, from Kalamazoo or Timbuckto, and you will be "shown." Here is where the world's record for speed is broken with every recurring season. Autos, the biggest, the fastest, and the finest are on daily parad and the big show is as free as the pure artesian water from the thousands of flowing wells. It is a continuous show with constantly shifting scene.

Everything goes, from a 2-horse power, up to a 200-horse power, and all degrees of speed from scagher to a two-mile-a-minute clip. You will probably catch the spirit, when you do the roads and the beach are yours. The Florida sunshine is free, the balmy ocean breezes are free, the birds and squirrels and flowers are free, the sparkling fountain water is free and you will have to go down into your wallet only for coin for auto, and bed and board.

This is no fanciful picture; it's all here. It is drawing other thousands and holding them enthralled, it will charm and hold you. Come and see.

The mean average temperature ... degrees in the summer and 70 degrees in the winter, with an occasional extra rise or d.op of a few days' duration, marks this as one of the ... healthful locations in any section of the country, north, east, south or west.

The ocean itself, with its marvelous beach, hard as macadam and ... as a floor, is the greatest attraction although earth and air and sky ... to have entered into a combination to enhance its every charm. The beach is the famous automobile ... course where every world's ... away record has been made, and ... these records it continues to hold without rivalry.

The sand of this famous speedway is composed largely of the shells of the coquina clam, which are about one-half inch long and very thin. For ages Nature has been ... them up, washing them back into the surf and pulverizing them. Examined under the microscope each particle is round, unfit for mortar, builders say, because its smoothness prevents its holding together, yet, strange to contemplate, the very moment a wave leaves the wet, apparently soft beach, these round particles settle down into a cement almost as hard as asphalt, beyond the comprehension of one who has not seen it. Repairs are unnecessary, as twice each 24 hours it is entirely rebuilt by the tides. The beach has a width of 300 to 500 feet, and can be used from two hours after until two hours before high tide, thus giving an average of seven or eight hours for automobiling some part of each day.

Seabreeze and Daytona Beach each have a permanent population of approximately 1500. Sanitary ordinances are strictly enforced, streets and sidewalks are well kept, and new streets are being opened as fast as the increasing population demands. Besides hotels and boarding houses there is ample cottage accommodation for all winter visitors.

Seabreeze contains a handsome opera house and a Congregational Church; at Daytona Beach is a M. E. Church. An excellent high school is situated near the division line between the two towns. Both towns have enterprising business establishments, as is evidenced by the advertisements on the left and right.

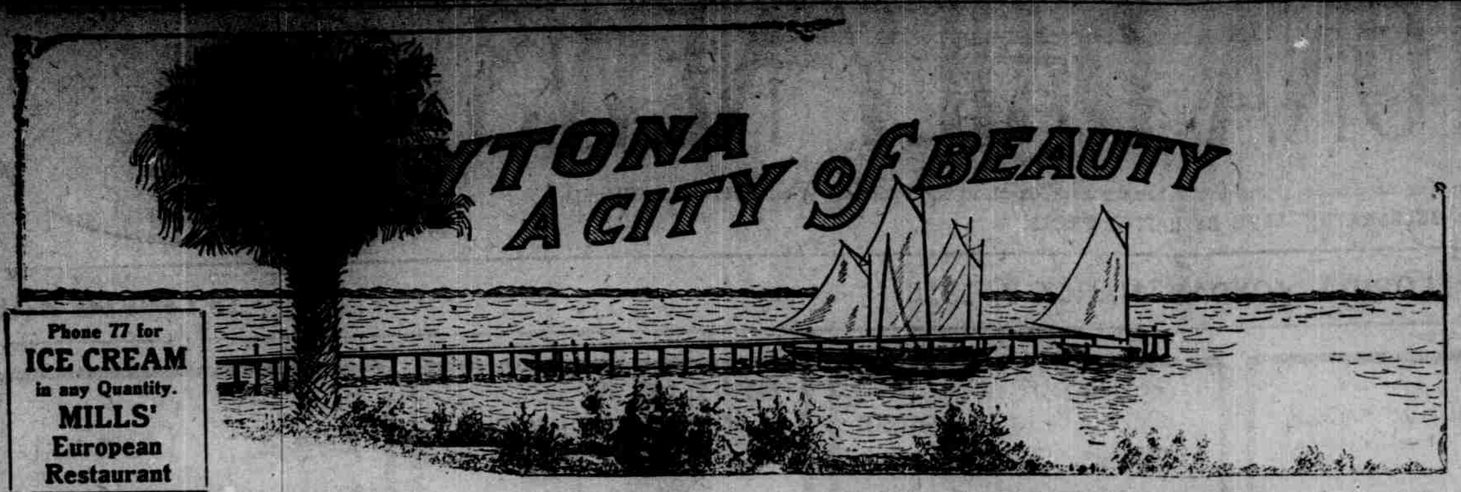

All the attractiveness of Seabreeze applies to Daytona Beach, the two towns being so similarly situated. The development of Daytona Beach has been fully as phenomenal as its sister on the north, and each year there is a substantial growth. The great sand dunes have been leveled and handsome homes have been built for both winter and all-year-round occupancy. Flowering shrubs have been planted, which are covered with a wealth of bloom both summer and winter.

Work of rebuilding the Clarendon hotel is now in progress. This magnificent fire-proof structure, which is to contain 250 rooms, when completed will be the peer of any hotel in Florida. The site is immediately north of the clubhouse of the Florida East Coast Automobile Association.

The Ocean Pier is a great attraction to fishermen and it is lined summer and winter with enthusiastic disciples of Izaak Walton, who find it nothing unusual to land fish weighing several hundred pounds.

By L. C. DEMAREE.

One of Daytona's crowning glories is her incomparable beach. No one who ever set foot upon its smooth, packed sands; no one who ever pedaled a bicycle over its expanse; no one who ever drove a prancing pair of horses and listened to the popping of their steel shoes upon its asphaltum-like face; no one who ever steered a high-power automobile down the broad stretch of wave-washed and surf-packed sand but realized that it is a world-beater, a world-wonder. Go stand upon this wide speedway and see the happy souls flit by in joyous mood, and answer whether this is not one of the seven modern wonders.

The Placid, Pellucid Halifax River.

Where think you is water with more picturesque surroundings? Nearly a mile wide, fringed with tropical vegetation, artistic cottages with roomy verandas looking out upon her bosom, gamey food fishes in countless numbers beckoning, as it were, to those with rod and reel; her bosom flecked with duck and coot and snowy-winged sea birds, which sit about as if for the sport of bobbing upon the waves; watch that lubberly old white headed pelican pouch a fat mullet, and that fish hawk struggling upward with his floundering load he snatched from the water.

See the beautiful launches, spick and span, their hampers and lockers bulging with refreshments both solid and liquid ready for a cruise upon th beautiful surface. Take out your fiel glass and sweep the river from Ormondg bride to Ponce Park light house, then say whether the Halifax isn't a thing of beauty and a joy forever, and one of the modern wonders.

The Enchantingly Picturesque Ridgewood.

Ridgewood avenue is upon the crest of a broad ridge, straight as the crow flies and the wide-spreading branches of the heavy-trunked live oaks extend their giant arms across the magnificent vista, forming an arch, and from these extended arms great festoons of Spanish moss sway as the trade winds from the tropic seas fan them . Looking straight ahead down this white shell street one has the impression of a fairy path with elfish draperies, but as you move along and cast an eye first to tne right and then to the left you see distinguished cottage homes in t.e most delightful settings.

See the glistening leaf of the grand magnolia which nature has varnished as no artists' brush ever could; and the cabbage palms with their burdens of showy fruit and swaying palms; see the lovely holly with its exquisite berry; see the climbing vines run riot in the trees; see the cryptogamons forms which gain a foothold on the great oaks and stately palms, and surely you will join in the chorus and say that this is a world wonder for beauty .

Surpassing Beauty of Our Cottage Homes.

No one of Daytona's attractions, perhaps, commands more nearly universal attention and praise than does the artisic cottages . The owners of these charming villas hail from every corner of the country and they bring their own architectural plans and build upon them, and, as the architecture of one section of the country differs from the architecture of another, so do our homes differ in outward appearance and structural beauty fror one another. There are no monotonous rows of strikingly similar buildings but the eye, as it sweeps by, is treated to a kaleidoscopic change which keeps the mind wondering, "What next?"

It is not only the exterior of many of thsee homes which rivets attention; within they are models of convenience, and the finishing and furnishing give evidence of the elegance and cultivation of those who worked it all out. Indeed, it is the interior arrangement and artistic furnishing and shading, more than the exterior appearance that gives a surpassing charm to Daytona homes . This feature justly merits prominence as another wonder.

Streets and Pavements the Most and Best.

Why the Architect oof the Universe chose to give Daytona the most admirable, the most picturesque natural setting of all the cities of the South is not revealed, but that such is a fact must be apparent to the most superficial observer. With such lavish wealth of natural beauty it became an easy thing for the hand of man to give the finishing touches which have wrought out the colors and outlines of the big picture.

Man did all this in the laying out of the streets with their wide margins of parkage. The entire city becomes a great park, with driveways intersecting. miles upon miles of driveways so good as to attract motorists from all over the continent.

And as for the pavements, pavements that look and act like granite, —where else between the eastern and western seas are so many miles in proportion to inhabitants? The pavement question stands with the street as one of the chief drawing cards. Till some unheard of place reports more and better, Daytona throws down the gauntlet to the world.

Squirrels, Flowers, Birds and Frut.

Whatever oone's shortcomings and however indifferent or even callous one may be to many things, the mere mention of "flowers and Squirrels, birds and fruits" will send a thrill that is reflected in distended pupils and pricked ears.

For every visitor with a spare goober there is a bunny ready to come and accept your gift. He will sit bolt upright and knaw into the meat, casting furtive, saucy glances at you meanwhile.

Flowers. Usually fresh and blooming the year 'round You are reminded of Goldsmith's couplet where

Smiling spring its earliest visit paid
And summer's lingering blossoms are delayed.

In one yard roses of varigated hues predominate; another household has a penchant for the poincetta and the premises are aflame; another is hidden in a jungle of tall cane. Variety is the spice of life and here is where you find it.

The birds flit in, and with their joyous notes help to give fullness and symmetry to the picture .

As for fruits, choice citrus fruits, Daytona yields the palm to none for quality and quantity per acre. There are scores of citrus groves in proximity to the city, branches bending to the earth with their burdens of luscious golden globes, which for beauty, proflicacy and all desirable qualities would truly astonish you.

The Fastest Autos and The Finest Out.

The seventh world wonder, do you ask? Come, whether from Missouri or from Maine, from Kalamazoo or Timbuckto, and you will be "shown." Here is where the world's record for speed is broken with every recurring season. Autos, the biggest, the fastest, and the finest are on daily parad and the big show is as free as the pure artesian water from the thousands of flowing wells. It is a continuous show with constantly shifting scene.

Everything goes, from a 2-horse power, up to a 200-horse power, and all degrees of speed from acanter to a two-mile-a-minute clip. You will probably catch the spirit, when you do the roads and the beach are yours. The Florida sunshine is free, the balmy ocean breezes are free, the birds and squirrels and flowers are free, the sparkling fountain water is free and you will have to go down into your wallet only for coin for auto, and bed and board.

This is no fanciful picture; it's all here. It is drawing other thousands and holding them enthralled, it will charm and hold you. Come and see.

PROGRESSIVE NEW SMYRNA

NEW SMYRNA is situated fifteen miles south of Daytona and is an ideal spot reached from Daytona by a hard surface road winding through one of the most picturesque parts of Florida.

With its ancient ruins dating back to a time when the history of man runneth not, interlaced with wires of the modern telegraph and telephone, its miles of shell streets as hard and smooth as a floor and over-arched by hoary forest giants that grew in stately grandeur during the lapse of bygone centuries, New Smyrna is truly a place of romance and rest.

All nature here is very inviting to the tourist and pleasure-seeker. Here too is to be found the best fishing and hunting in the State of Florida.

The people are thrifty, the business men enterprising, and all unite in extending the welcome hand of hospitality to strangers. There are five church edifices for white people and an equal number for the colored population; the town has an excellent high school, a splendid public library, and up-to-date business houses.

There are any number of pretty homes for the permanent population, which numbers close to 2,000, and some very fine winter residences. There are good hotels and boarding houses where you can find accommodations to meet your requirements.

Adjoining New Smyrna is as fine a section of vegetable land as can be found anywhere. This land has been divided into small farms which can be bought at reasonable prices. Some of the finest celery grown in the State is raised on this land. All other vegetables grow in abundance, and here, too, is the home of the famous Indian River oranges.

New Smyrna has no bonded indebtedness and the tax levy is low.

A point that no tourist should fail to visit is the ruins of the Old Spanish Mission which stand somber and alone about one and a quarter miles southwest of New Smyrna. A good road leads to the place and the trip can be easily made by an automobile. Silent, in the great pine flats by the margin of the forest, is this place of pilgrimage for the pious; this rendezvous for the picnicker. The ruins are extensive, and while there is no authentic history of their origin, it is presumed that the Mission was built by the Franciscans in the days when the once powerful Kingdom of Spain first planted its flag upon what is now American soil. It was built of coquina, the roof being of the same material, cut into thin slabs and covered with cement plaster. Extensive gardens surrounded it, which were enclosed by a stone wall, portions of which still remain. Visitors usually come in parties merry and curious but the spell of the place soon falls upon them and they separate to sit alone, silent and meditative, under the arches or beside the ancient wall.

CORONADO

Is situated on the peninsula opposite New Smyrna and is connected by a good road and bridge over the deep current of Indian River. Here you can put aside your conventional garb, breathe in large and deep the salty tonic of the sea and enjoy yourself to your heart's content with rod and reel in row or sail boat or in the ocean surf a short half-mile away. The great varieties of fish inhabiting the river and lagoons pass through the channel from the sea beneath the bridge. From verandas, upper balconies and windows you behold the magnificent river, the distant lagoons and islands, the forest-covered peninsula and the vast reaches of the Atlantic Ocean.

HAWKS PARK

A pretty village located along the ridge above the Indian River two and one-half miles south of New Smyrna and connected with fine shell roads. There is the appearance of newness, comfort and seclusion about the place which stamps it as the abode of people who come here to enjoy the blessings of outdoor life away from places where crowds are apt to gather.

ORMOND-ON-THE-HALIFAX

ORMOND is five miles north of Daytona, located on the western bank of the Halifax River. The location of the town permits of good drainage and perfect sanitation; the elevation is superb and ideal for winter homes. A wide bridge connects Ormond with Ormond Beach.

Many fine residences are maintained on either side of the river, most of them embellished with subtropical flora and shrubbery, besides thrifty orange and other citrus fruit trees.

The town is very cosmopolitan, has an excellent graded school, several churches, a fine public library, up-to-date places of business and comfortable and convenient hotels and boarding houses.

Ormond has many of the Florida attractions—fine for good fishing, excellent automobiling, safe boating, salubrious climate and pleasant walks and drives.

At Ormond Beach is located the large Hotel Ormond, and its lesser sister, Bretton Inn. The former occupies a position overlooking the Halifax River, while the latter has as its outlook the magnificent beach and the broad Atlantic.

The walks in all directions are particularly attractive, and the arbors, shady and inviting spots and romantic nooks are crowded with rustic seats which are mute invitations to enter into the enjoyment thereof.

Besides the broad, smooth ocean beach there are many drives for carriage or automobile—long drives and short drives; drives through groves of golden oranges; drives through dense tropical forests to Spanish ruins; drives to the ancient Causeway built by the slaves of planters of long ago, and drives to the plantations of hospitable settlers, whose places are replete with the interest of Southern fruits and flowers.

One of these interesting plantations is Number Nine, located on the peninsula, five miles north of the Hotel Ormond. Here you see a fine orange grove, together with great varieties of other sub-tropical fruits and flowers.

Five miles farther on you come to Moundgrove, one of the finest orange groves in this section of Florida. Moundgrove is on the headwaters of the Halifax River and is amid pretty surroundings. The place is reached by a good road (passing Number Nine) and is a drive all tourists may enjoy.

PICTURESQUE PORT ORANGE

PORT ORANGE is a pretty little village situated five miles south of Daytona on the Daytona-New Smyrna hard-surface road, the scenic highway of the East Coast. The town is located on the Halifax River, over which spans a bridge from the town to the peninsula opposite.

The town is well laid out and has many pretty homes owned and occupied by residents and winter tourists. It has several churches, one of the best graded schools in Volusia county, two general stores, a real estate agency and two or three hotels.

A large number of tourists and winter residents make Port Orange winter headquarters, one of the several attractions being the excellent fishing. Port Orange is in the orange belt and a number of very fine citrus groves are nearby, where oranges, tangerines and grape-fruit hang in profusion. Some of the best trucking land in the State is to be found thereabout and excellent crops are raised.

West of Port Orange a short distance are the ruins of the old Dunlawton sugar mill, a spot that is visited every year by hundreds of tourists. At one time all the country west of Port Orange, surrounding the old mill, was a vast sugar-cane and indigo plantation. The mill was operated extensively in those days but has been in disuse for thirty or forty years.

A pretty automobile or carriage drive from Daytona is via the ocean beach to the approach of the Port Orange bridge, across the bridge and then passing through Port Orange to the ruins of the celebrated old sugar mill, returning to Daytona by the road on the mainland. This drive affords a very pleasing variety of scenery.

DeLAND, THE ATHENS OF FLORIDA

DeLAND, the county seat of Volusia County, is situated 23 miles southwest of Daytona and is reached from the latter city by an excellent hard-surface road recently constructed.

At DeLand is located the John B. Stetson University, one of the leading educational institutions of the South. Because of the interest in matters educational DeLand is known as "The Athens of Florida."

Stetson University has a faculty of 50 professors and instructors. There are over $600,000 in buildings and equipment; nearly $300,000 endowment; a Carnegie Library alone representing an investment in building, endowment and books, of more than $120,000. The library is the United States Government depository for the State of Florida, and contains over 15,000 volumes. Science Hall, one of the newest of 16 buildings, with its furnishings, represents an outlay of $60,000. Elizabeth Hall is one of the most beautiful college buildings in the South.

The city has a population of about 3,500, with a thickly settled country adjacent. DeLand proper is five miles east of the St. Johns River, on the high, rolling pine land of the great "Orange Ridge" of Florida.

The predominating products are oranges and grapefruit, the estimated crop from this vicinity being over 300,000 boxes this year. Grapes, peaches, pears, Japan persimmons, plums, pecans, guavas, strawberries and other fruits are grown in plenty.

In the way of public improvements are many miles of fine shell roads, an excellent high school, electric lights, a system of waterworks that is owned and operated by the city, supplying the purest water at little cost.

Nine houses of worship testify that DeLand is a church-going community. Baptists, Episcopalians, Methodists (Northern and Southern), Presbyterians, Christians and Catholics, besides colored Baptists and Methodists, are represented.

The graded school offers a ten years' course, and the building which it occupies is newly furnished throughout, and is one of the most commodious and best equipped public schools in the State.

The trip from Daytona to DeLand is made by automobile in a little over an hour, and there are many pretty drives in the vicinity of the county site. A good road leads to DeLeon Springs, five miles, a historic spot, where 60,000 gallons of water bubble from the earth every minute.

From DeLand automobiles go south to Osteen, 18 miles, on shell and marl roads; the St. Johns is crossed by ferry near Osteen and cars can then continue to Sanford and Orlando by hard road. There is a shell road from DeLand to Orange City, five miles, and a good road from DeLand to Lake Helen, a like distance.

LAKE HELEN

Surrounded by several pretty lakes and guarded by lofty pine trees is Lake Helen, a winter resort of no little importance. Camp Cassadaga, a spiritualistic camp-ground is situated near Lake Helen and at this place several hundred people make winter headquarters. A large lumber mill and the largest brick plant in the South are located at Lake Helen.

ORANGE CITY

The principal attraction around Orange City is the many handsome golden orange groves. The town is supplied with water said to be the purest in the world, another attraction to visitors. It is at Orange City that passengers over the Florida East Coast Ry. transfer to carriages and drive to DeLand. The town is surrounded by land peculiarly adapted to the cultivation of citrus fruits.

PROGRESSIVE NEW SMYRNA

NEW SMYRNA is situated fifteen miles south of Daytona and is an ideal spot reached from Daytona by a hard surface road winding through one of the most picturesque parts of Florida.

With its ancient ruins dating back to a time when the history of man runneth not, interlaced with wires of the modern telegraph and telephone, its miles of shell streets as hard and smooth as a floor and over-arched by hoary forest giants that grew in stately grandeur during the lapse of bygone centuries, New Smyrna is truly a place of romance and rest.

All nature here is very inviting to the tourist and pleasure-seeker. Here too is to be found the best fishing and hunting in the State of Florida.

The people are thrifty, the business men enterprising, and all unite in extending the welcome hand of hospitality to strangers. There are five church edifices for white people and an equal number for the colored population; the town has an excellent high school, a splendid public library, and up-to-date business houses.

There are any number of pretty homes for the permanent population, which numbers close to 2,000, and some very fine winter residences. There are good hotels and boarding houses where you can find accomodations to meet your requirements.

Adjoining New Smyrna is as fine a section of vegetable land as can be found anywhere. This land has been divided into small farms which can be bought at reasonable prices Some of the finest celery grown in the State is raised on this land. All other vegetables grow in abundance, and here, too, is the home of the famous Indian River oranges.

New Smyrna has no bonded indebtedness and the tax levy is low.

A point that no tourist should fail to visit is the ruins of the Old Spanish Mission which stand somber and alone about one and a quarter miles southwest of New Smyrna. A good road leads to the place and the trip can be easily made by an automobile. Silent, in the great pine flats by the margin of the forest, is this place of pilgrimage for the pious; this rendezvous for the picnicker. The ruins are extensive, and while there is no authentic history of their origin, it is presumed that the Mission was built by the Franciscans in the days when the once powerful Kingdom of Spain first planted its flag upon what is now American soil.. It was built of coquina, the roof being of the same material, cut into thin slabs and covered with cement plaster. Extensive gardens surrounded it, which were enclosed by a stone wall, portions of which still remain. Visitors usually come in parties merry and curious but the spell of the place soon falls upon them and they separate to sit alone, silent and meditative, under the arches or beside the ancient well.

CORONADO

Is situated on the peninsula opposite New Smyrna and is connected by a good road and bridge over the deep current of Indian River. Here you can put aside your conventional garb, breathe in large and deep the salty tonic of the sea and enjoy yourself to your heart's content with rod and reel in row or sail boat or in the ocean surf a short half-mile away. The great varieties of fish inhabiting the river and lagoon pass through the channel from the sea beneath the bridge. From verandas, upper balconies and windows you behold the magnificent river, the distant lagoons and islands, the forest-covered peninsula and the vast reaches of the Atlantic Ocean.

HAWKS PARK

A pretty village located along the ridge above the Indian River two and one-half miles south of New Smyrna and connected with fine shell roads. There is the appearance of newness, comfort and seclusion about the place which stamps it as the abode of people who come here to enjoy the blessings of outdoor life away from places where crowds are apt to gather.

ORMOND-ON-THE-HALIFAX

ORMOND is five miles north of Daytona, located on the western bank of the Halifax River. The location of the town permits of good drainage and perfect sanitation; the elevation is superb and ideal for winter homes. A wide bridge connects Ormond with Ormond Beach.

Many fine residences are maintained on either side of the river, most of them embellished with subtropical flora and shrubbery, besides thrifty orange and other citrus fruit trees.

The town is very cosmopolitan, has an excellent graded school, several churches, a fine public library, up-to-date places of business and comfortable and convenient hotels and boarding houses.

Ormond has many of the Florida attractions—fine fruit, good fishing, excellent automobiling, safe boating, salubrious climate and pleasant walks and drives.

At Ormond Beach is located the large Hotel Ormond, and its lesser sister, Bretton Inn. The former occupies a position overlooking the Halifax River, while the latter has as its outlook the magnificent beach and the broad Atlantic.

The walks in all directions are particularly attractive, and the arbors, shady and inviting spots and romantic nooks are crowded with rustic seats which are mute invitations to enter into the enjoyment thereof.

Besides the broad, smooth ocean beach there are many drives for carriage or automobile—long drives and short drives; drives through groves of golden oranges; drives through dense tropical forests to Spanish ruins; drives to the ancient Causeway built by the slaves of planters of long ago, and drives to the plantations of hospitable settlers, whose places are replete with the interest of Southern fruits and flowers.

One of these interesting plantations is Number Nine, located on the peninsula, five miles north of the Hotel Ormond. Here you see a fine orange grove, together with great varieties of other sub-tropical fruits and flowers.

Five miles further on you come to Moundgrove, one of the finest orange groves in this section of Florida. Moundgrove is on the headwaters of the Halifax River and is amid pretty surroundings. The place is reached by a good road [passing Number Nine] and is a drive all tourists may enjoy.

COTTAGES AND ROOMS TO LET—Furnished; Modern Improvements; on River Front or Side Streets. Rents Reasonable. Write to W. F. COLBY at Ormond.

PICTURESQUE PORT ORANGE

PORT ORANGE is a pretty little village situated five miles south of Daytona on the Daytona-New Smyrna hard-surface road, the scenic highway of the East Coast. The town is located on the Halifax River, over which spans a bridge from the town to the peninsula opposite.

The town is well laid out and has many pretty homes owned and occupied by residents and winter tourists. It has several churches, one of the best graded schools in Volusia county, two general stores, a real estate agency and two or three hotels.

A large number of tourists and winter residents make Port Orange winter headquarters, one of the several attractions being the excellent fishing. Port Orange is in the orange belt and a number of very fine citrus groves are nearby, where oranges, tangerines and grape-fruit hang in profusion. Some of the best trucking land in the State is to be found thereabout and excellent crops are raised.

West of Port Orange a short distance are the remains of the old Dunlawton sugar mill, a spot that is visited every year by hundreds of tourists. At one time all the country west of Port Orange, surrounding the old mill, was a vast sugar-cane and indigo plantation. The mill was operated extensively in those days but has been in disuse for thirty or forty years.

A pretty automobile or carriage drive from Daytona is via the ocean beach to the approach of the Port Orange bridge, across the bridge and then passing through Port Orange to the ruins of the celebrated old sugar mill, returning to Daytona by the road on the mainland. This drive affords a very pleasing variety of scenery.

ASK TO SET ASIDE HAT JUDGMENT.

INTERESTING QUESTION IN REFERENCE TO BOYCOTTS NOW BEFORE U. S. CIRCUIT COURT AT HARTFORD.

HARTFORD, Conn., March 7—In the United States Circuit Court today arguments were heard on a motion of the United Hatters of North America to set aside the verdict of $222,000 obtained against the organization in the suit of D. E. Loewe, of Danbury. It is understood that leading labor organizations of America have contributed to a fund to aid the United Hatters in fighting the verdict and to carry the case to the Supreme Court of the United States if necessary. If the verdict is upheld by the highest tribunal it will be one of the hardest blows ever dealt to organized labor in this country as it will prevent them in the future from resorting to the boycott as a means of fighting the so-called "unfair" merchants and manufacturers.

The suit against the United Hatters has been one of the longest ever tried in a district court. It grew out of the boycotting of the D. E. Loewe Company in 1902 by labor organizations, especially the United Hatters of North America, whose officers and members originally to the number of about 2,500, were made parties defendant. It was begun six years ago, considerable time being taken up in disposing of various motions and deciding whether jurisdiction should be taken by the State or Federal courts. Last fall the case was ready to be tried on its merits, and the trial began on Oct. 12, and, as it progressed, it became evident that the struggle was virtually one between the labor organizations and the Anti-Boycott Association, with able counsel on both sides. In his charge to the jury Judge James P. Platt said that there was no doubt as to the existence of a boycott, and after this point was settled, there was left the question as to the amount of damages to be awarded. On February 5th last the jury, after being out two hours, ordered actual damages of $74,000 to the plaintiff, but as the suit was brought under the Sherman anti-trust law triple damages can be recovered.

T. BARTON MILLER ON TRIAL AT WASHINGTON.

WASHINGTON, March 7—The case of T. Barton Miller, former secretary of the defunct First Co-Operative Building and Loan Association, of Georgetown ,was called for trial in the second division of the Criminal Court today. Miller is charged with destroying the books and records of the association and also with the embezzlement of the associations' funds. The case is attracting considerable interest in Washington and the progress of the trial will be watched with more than usual interest. The defendant has engaged eminent counsel and will, it is expected, make a strong fight.

Mrs. Otto Wehner's friends will be glad to learn that she is able to be up and about again.

DRUGGISTS TO FIGHT THE TRUSTS.

AMERICAN DRUGGISTS' SYNDICATE TODAY DEVISING WAYS AND MEANS TO THIS END.

NEW YORK, March 7—The stockholders of the American Druggists' Syndicate met here today to consider ways and means of fighting the new retail drug trust, which is trying to obtain control of the retail drug trade in the large cities of the East and of New England by establishing "chains" of drug stores selling drugs and other articles usually found in drug stores at cut prices. The new trust, which is said to be headed by officers of the United Cigar Stores Company and backed by Standard Oil capital, is also branching out in the large western cities and the independent retailers in Chicago and other western cities are about to organize with a view of joining the co-operative American Druggists' Syndicate in its fight against the trust. The American Druggists' Syndicate is conducted by the retailers belonging to it themselves and manufactures special brands of goods for its members. One of the principal objects of today's meeting is the consideration of the proposition to increase the capital stock of the syndicate sufficiently to enable it to buy a controlling interest in the retail drug stores of the large cities throughout the country. The syndicate proposes to have its own wholesale agency in every city where it has members.

WESTERN THRESHERMEN WANT HIGHER PAY.

Threshermen Want Higher Pay.

WICHITA, KAS., Mar. 7.—One of the most important subjects to be considered by the annual convention of the Operating Threshers which opens here today for a four days' session, will be the question of rates. On account of the existing high price of grain and labor and threshermen contend they do not receive enough pay for their work and the use of their machinery. An effort will be made at the convention to reach an agreement to advance the price of threshing in the coming season. It is understood that the manufacturers, who in former years have always discouraged such movement are now willing to support it. Several thousand threshers from Missouri, Kansas, Texas, Oklahoma, Colorado and Nebraska are in attendance.

DAYTONA,

WHO

Is there among the people that have seen Daytona, that can fail to realize its stability and its future? Each year has shown repeated success to those who invest in ventures based upon the advance of this beautiful city, and Ridgewood Heights is one of those ventures where your chances for profit are far greater than your chances to lose. A number of people did not care to venture out last Thursday morning and in the afternoon it rained again therefore we decided to let those sales stand that were made and postpone until

FRIDAY, MARCH 11, 9:30 a. m.

As the city expands you must expect to move a little farther out and Ridgewood Heights on account of the high elevation and desirable east frontage is going to build up rapidly and enhance in value if anything around Daytona will. Five years ago lots a half a mile or more close in, appeared in the eyes of some people "far out" and today those same lots are close in, and commanding higher prices. The same thing can probably be said of Ridgewood Heights and the chances are that it will happen in the near future, because they will be sold to the people and that's just what makes them build up and become valuable.

The Same Easy Terms

One fourth cash and balance in two years, payable quarterly with 8 per cent. interest on deferred payments.

The Free Lot

Will be given away on the grounds and every person present will have an equal opportunity to secure the free lot regardless whether you bid, buy or not.

Free Automobiles

Leave the business center promptly at 9:00 a. m. Everybody invited to take the ride. If you desire to buy one of these lots either for a home or investment you will be planting a few dollars where they cannot die other than grow.

FRIDAY, MARCH 11, 9:30 a. m.

ASK TO SET ASIDE HAT JUDGMENT.

INTERESTING QUESTION IN REFERENCE TO BOYCOTTS NOW BEFORE U. S. CIRCUIT COURT AT HARTFORD.

HARTFORD, Conn., March 7—In the United States Circuit Court today arguments were heard on a motion of the United Hatters of North America to set aside the verdict of $222,000 obtained against the organization in the suit of D. E. Loewe, of Danbury. It is understood that leading labor organizations of America have contributed to a fund to aid the United Hatters in fighting the verdict and to carry the case to the Supreme Court of the United States if necessary. If the verdict is upheld by the highest tribunal it will be one of the hardest blows ever dealt to organized labor in this country as it will prevent them in the future from resorting to the boycott as a means of fighting the so-called "unfair" merchants and manufacturers.

The suit against the United Hatters has been one of the longest ever tried in a district court. It grew out of the boycotting of the D. E. Loewe Company in 1902 by labor organizations, especially the United Hatters of North America, whose officers and members originally to the number of about 2.500, were made parties defendant. It was begun six years ago, considerable time being taken up in disposing of various motions and deciding whether jurisdiction should be taken by the State or Federal courts. Last fall the case was ready to be tried on its merits, and the trial began on Oct. 13, and, as it progressed, it became evident that the struggle was virtually one between the labor organizations and the Anti-Boycott Association, with able counsel on both sides. In his charge to the jury Judge James P. Platt said that there was no doubt as to the existence of a boycott, and after this point was settled, there was left the question as to the amount of damages to be awarded. On February 5th last the jury, after being out two hours, ordered actual damages of $74,000 to the plaintiff, but as the suit was brought under the Sherman anti-trust law triple damages can be recovered.

T. BARTON MILLER ON TRIAL AT WASHINGTON.

WASHINGTON, March 7—The case of T. Barton Miller, former secretary of the defunct First Co-Operative Building and Loan Association, of Georgetown ,was called for trial in the second division of the Criminal Court today. Miller is charged with destroying the books and records of the association and also with the embezzlement of the associations' funds. The case is attracting considerable interest in Washington and the progress of the trial will be watched with more than usual interest. The defendant has engaged eminent counsel and wille, it is expected, make a strong fight.

Mrs. Otto Wehner's friends will be glad to learn that she is able to be up and about again.

DRUGGISTS TO FIGHT THE TRUSTS.

AMERICAN DRUGGISTS' SYNDICATE TODAY DEVISING WAYS AND MEANS TO THIS END.

NEW YORK, March 7—The stockholders of the American Druggists' Syndicate met here today to consider ways and means of fighting the new retail drug trust, which is trying to obtain control of the retail drug trade in the large cities of the East and of New England by establishing "chains" of drug stores selling drugs and other articles usually found in drug stores at cut prices. The new trust, which is said to be headed by officers of the United Cigar Stores Company and backed by Standard Oil capital, is also branching out in the large western cities and the independent retailers in Chicago and other western cities are about to organize with a view of joining the cooperative American Druggists' Syndicate in its fight against the trust. The American Druggists' Syndicate is conducted by the retailers belonging to it themselves and manufactures special brands of goods for its members. One of the principal objects of today's meeting is the consideration of the proposition to increase the capital stock of the syndicate sufficiently to enable it to buy a controlling interest in the retail drug stores of the large cities throughout the country. The syndicat proposes to have its own wholesale agency in every city where it has members.

WESTERN THRESHERMEN WANT HIGHER PAY.

Threshermen Want Higher Pay.

WICHITA, KAS., Mar. 7:—One of the most important subjects to be considered by the annual convention of the Operating Threshers which open here today for a four days' session, will be the question of rates. On account of the existing high price of grain and labor and threshermen contend they do not receive enough pay for their work and the use of their machinery. An effort will be made at the convention to reach an agreement to advance the price of threshing in the coming season. It is understood that the manufacturers, who in former years have always discouraged such movement are now willing to support it. Several thousand threshers from Missouri, Kansas, Texas, Oklahoma, Colorado and Nebraska are in attendence.

Curiosities of Superstition.

When Egypt was in the height of her power, when she was most highly civilized and delighted in being called the mistress of the land and sea, her people worshiped a black bull. There was some discrimination, however, even in this form of worship. In order to be an object of mad adoration it was necessary that the bull calf be born with a circular white spot in the exact center of his forehead, and the advent of such a creature in any herd was the signal of wild demonstrations from the Mediterranean to the border of the Lybian desert. Even as late as the time of Cleopatra, star eyed goddess, glorious sorceress of the Nile, such animals were shod with gold and had their horns tipped with the same metal. Herodotus tells of a man who died with grief because he sold a cow that soon after became the mother of a black bull calf marked with the sacred white circle in his forehead.

Lead Pencil Experiments.

An English statistician was asked how many words could be written with an English lead pencil, and, being determined to answer it, he bought a lead pencil and Scott's "Ivanhoe" and proceeded to copy the latter word by word. He wrote 45,000 words and then was obliged to stop, for the pencil had become so short that he could not use it. A German statistician who heard of this experiment was dissatisfied with it because all the lead in the pencil was not used on the work, and therefore he bought a pencil and started to copy a long German novel. When the pencil was so short that he could not handle it with his fingers he attached a holder to it, and it is said that he wrote with this [illegible] 400,000 words. Possibly, however, his pencil was longer or the lead in it was of a more durable quality.

READY FOR TRIAL OF RUSSIAN REVOLUTIONISTS.

UNUSUAL INTEREST MANIFEST ALL OVER THE WORLD — NOTED LAWYERS WILL DEFEND THE CASES.

ST. PETERSBURG, March 7.—Unusual interest is manifested throughout Russia as well as in England and the United States, in the trial of Nicholas Vasilievich Tschaikovsky and Ekaterina Constantinova Breshkovskaya, which is to open here tomorrow. The preparations are practically completed and it is understood that in deference to the requests from England and America the trial will be public. As the court room is small admission tickets have been issued to a limited number.

Both defendants are charged with being members of a revolutionary organization and with having taken part in seditious agitation against the government and with having conspired against the life of certain government officials. The government bases its charges upon evidence, the greater part of which was supplied by renegade revolutionists who were acting as spies for the Russian police while they pretended to be in thorough sympathy with the aims and objects of the revolutionists. Tschaikovsky, who will be represented by M. Maklakoff, one of the most eloquent lawyers in Russia, is said to be prepared to prove an alibi in one of the most serious charges of his indictment. Mme. Breshkovskaya, who for many years has been a prominent member of the social revolutionary party, in which circle she is known by the friendly title of "Grandmother," was arrested at Simbirsk, on October 3, 1907 and has spent the years since in the dismal dungeons of the St. Peter and Paul fortress. Prince Eristoff, a lawyer of great ability, will defend her, but it is generally believed that his task will be extremely difficult, as there is said to be very strong evidence against his client.

Now They Are Married.

A bashful young man went three times to ask a beautiful young lady if he might be the partner of her joys and sorrows and other household furniture, but each time his heart failed him, and he took the question away unpopped.

She saw the anguish of his soul and had compassion on him. So the next time he came she asked him if he had thought of trying a screwdriver.

He blushed and wanted to know what for.

And she, in the fullness of her heart, said she did not know but that he would want to screw up his courage before he left.

He took the hint and the girl.—Pearson's Weekly.

As the court room is small admission tickets have been issued to a limited number.

Both defendants are charged with being members of a revolutionary organization and with having taken part in seditious agitation against the government and with having conspired against the life of certain government officials. The governmen bases its charges upon evidence the greater part of which was supplied by renegade revolutionists who were acting as spies for the Russian police while they pretended to be in thorough sympathy with the aims and objects of the revolutionists. Techaikovsky, who will be represented by M Malakoff, one of the most eloquent lawyers in Russia, is said to be prepared to prove an alibi in one of the most serious charges of his indictment Mme. Breshkovaskaya, who for many years has been a prominent member of the social revolutionary party, in which circle she is known by the friendly title of "Grandmother," was arrested at Simbirsk, on October 8, 1907 and has spent the years since in the dismal dungeons of the St. Peter and Paul fortress. Prince Eristoff, a lawyer of great ability, will defend her, but it is generally believed that his task will be extremely difficult, as there is said to be very strong evidence against his client.

Now They Are Married.

A bashful young man went three times to ask a beautiful young lady if he might be the partner of her joys and sorrows and other household furniture, but each time his heart failed him, and he took the question away unpopped.

She saw the anguish of his soul and had compassion on him. So the next time he came she asked him if he had thought to bring a screwdriver.

He blushed and wanted to know what for.

And she, in the fullness of her heart, said she did not know but that he would want to screw up his courage before he left.

He took the hint and the girl.—Pearson's Weekly.

When Hunting Was Good and Gray Mares Were Wonders.

REAL SPORT IN THOSE DAYS.

Old Jimmy Chambers Tells About One Haul He Made When He Got More Than He Expected—The Willing Old Horse That Cracked Her Skin.

"Talk about yer huntin' trips," said ole Jimmy Chambers. "Why, there ain't no huntin' nowadays; no, not none 'tall—leastwise none worth mentionin'.

"It was different when I wuz a young feller. Them wuz huntin' days! When ye went out to hunt ye got sumthin', I tell ye. An' most always ye got a dum sight more 'n ye expected. I remember onct down in ole Pennsylvania when I had a hunt as wuz a plum. I had er ole muzzle loader rifle that could shoot some, I tell ye. An' I wuz no slouch at shootin' in them days myself. I could shoot about as well as ther next feller. Well, I went down to ther river lookin' fer er deer. I seen one standin' right in front of er big tree. I pulled up ther ole muzzle loader an' let her go. Jest as I fired a big fish jumped out of ther water, an' my shot went plum through him. I seen by ther way he fell I'd plugged er hole in him. The deer jest dropped where he stood—never stirred, jest fell stone dead.

"I rushed out into ther river an' grabbed my fish 'fore it could float away. With ther fish under my arm I started fer ther deer. An' what d'ye suppose? S' help me, jest back of where that deer stood ther bullet had knocked er hole in that tree as big as yer fist, an' out of that hole er regular stream of honey wuz flowin'! That good honey wuz goin' to waste dum fast, an' I hadn't nary er thing to stop it. Jest then er rabbit jumped out of er hole I hadn't noticed, an' I grabbed him by ther hind legs jest as he wuz leapin'. I wuz goin' to stuff him in ther hole when er flock of quail flew up on ther other side of ther tree. They wuz goin' straightaway, an' there wuz more 'n 10,000 of 'em. Ther ole muzzle loader wuzn't loaded, an' them quail wuz gettin' away fast. I wanted some of 'em bad, so I jest let go that ole rabbit right in ther middle of 'em, an' the way he kicked an' clawed as he wuz goin' through ther air wuz a caution. He landed right on top of ther whole bunch, an' when I got over there seventeen of 'em wuz dead on ther ground—yes, sir, jest seventeen of 'em! An' ther shock had killed ther rabbit too. He wuz all smashed up. I stuck his head in ther hole to stop ther honey till I could go home fer sum barrels.

"I hitched up ther ole gray mare to ther sled an' went back. I chopped that there ole tree down, an' there wuz honey enough to fill all my barrels. Well, I slung ther deer an' ther fish an' ther rabbit an' ther quail on ther sled an' started home. It wuz some load fer ther ole mare, an' I walked at her head, kinder coaxin' her along. I wuzn't payin' any attention to ther load, an', by gum, when we got up to ther house there wuz that there load way back in ther middle of ther river. Of course I knowed what wuz ther matter. That ole groundhog harness had got wet an' jest stretched. I wuz kind of hungry, so I jest throwed ther harness over a stump an' went into dinner. When I cum out again the sun had dried ther harness an' ther load wuz just pullin' up to ther stump. That wuz some hunt. Yer don't get nothin' like that nowadays, I tell ye. Them wuz good old days!

"An', speakin' of ther 'ole gray mare, she was ther willia'est mare that ever wuz. She'd pull anything yer hitched her to. I tried her, an' she pulled everything. One day I sez to myself, 'By gum, I'll give yer er load yer can't pull,' an' I hitched her to er stone boat loaded with all ther bowlders in ther county. She got right down an' pulled an' pulled an' pulled, but ther load didn't budge. I heard er little crack, but for er minute I didn't suspicion anything, an' before I noticed that ther skin on her face had cracked it wuz too late. I yelled at her to stop, but she wuz so dum mad she kept right on pullin', an' s'help me, before I could stop her she'd pulled herself clean out of her skin! I didn't want to lose that there mare, an' I got busy an' did er little skin graftin' fer myself. I had some fresh sheep pelts, an' I sewed them on as fast as I could sew. Well, sir, them pelts took root fine. They growed on that there ole mare jest like they'd always been there, an' ther next season I sheared jest 375 pounds of wool off'n her. She wuz er good ole mare, I tell ye, an' every year I got 375 pounds of wool so long as she lived. Yes, sir; it wus always jest 375 pounds. Yer don't have no such horses nowadays, I tell ye."—Outer's Book.

The Pimpernel.

The common pimpernel, "poor man's weather glass," has the disadvantage of being a native plant and has been almost completely expelled from our flower gardens in favor of exotics which are rarer, but lack much of being as pretty. The pimpernel is a charming little flower which opens about 8 in the morning and closes late in the afternoon, but has the remarkable peculiarity of indicating a coming shower by shutting up its petals.

The Five Worlds of the Bella Coola Sun Worshipers.

There is an odd feature in the theology of the small Indian tribe of the Bella Coola which inhabit British Columbia in about latitude 52. They believe that there are five worlds, one above the other, and the middle one is our own world, the earth. Above it are two heavens, and under it are two underworlds. In the upper heaven is the supreme deity, who is a woman, and she doesn't meddle much with the affairs in the second world below her. The zenith is the center of the lower heaven, and here is the house of the gods, in which live the sun and the rest of the deities.

Our own earth is believed to be an island swimming in the ocean. The first underworld from the earth is inhabited by ghosts, who can return, when they wish, to heaven, from which place they may be sent down to our earth. If these they misbehave again they are cast to the lower of the underworlds, and from this bourn no ghostly travelers returns.

The Bella Coola are sun worshipers, for Senex, the sun, the master of the house of gods who is called the father and the sacred one, is the only deity to whom the tribe pray. Each family of the Bella Coola has its own traditions and its own form of the current traditions, so that in the mythology of the tribe there are countless contradictions. When any one not a member of a clan tries to tell a tradition which does not belong to his clan it is like a white man trying to tell another's joke—he is considered as appropriating the property right which does not belong to him.

SMOKELESS POWDER.

It Came Through Experimenting For High Explosives.

The idea is very general that smokeless powder in being practically smokeless achieves its greatest end, but as a matter of fact its smokeless feature is incidental and was an accident.

When the idea of modern long range guns was conceived it was at once apparent that the old black powder lacked explosive force, and thousands of experiments were made with various chemicals to procure a powder of high explosive properties, and this was at last accomplished.

When the new powder was tried, much to the surprise of every one it was found that practically no smoke followed the explosion, though this could of course have been predicted had the question ever arisen. The volume of smoke from black powder is due mainly to the quantity of charcoal in the powder, an ingredient not found in the smokeless explosive.

Smokeless powder, though a great boon to the sportsman, is of questionable value on the battlefield, so far as its smokelessness is concerned. The smoke clouds of old days were frequently most advantageously used to cloak movements of troops and batteries and really interfered with the enemy much more than with the troops creating the smoke.—Exchange.

Saved by Fireflies.

The gigantic tropical fireflies which swarm in the forests and canebrakes of most of the low lying West Indian islands once proved the salvation of the city of Santo Domingo. A body of buccaneers, headed by the notorious Thomas Cavendish, had laid all their plans for a descent upon the place, intending to massacre the inhabitants and carry away all the treasure they conveniently could, and had actually put off their boats for that purpose. As they approached the land, however, rowing with muffled oars, they were greatly surprised to see an infinite number of moving lights in the woods which fringed the bayou up which they had to proceed, and, concluding that the Spaniards knew of their approach, they put about and regained their ship without attempting to land.

The Wonderful Banana.

Some people believe that the banana was the original forbidden fruit of the garden of Eden. In any case it is one of the curiosities of the vegetable kingdom, being not a tree, a palm, a bush, a shrub, a vegetable or a herb, but a herbaceous plant with the status of a tree. Although it sometimes attains a height of thirty feet, there is no woody fiber in any part of its structure, and the bunches growing on the dwarf banana plant are often heavier than the stalk which supports them. No other plant gives such a quantity of food to the acre as the banana. It yields 44 times more by weight than the potato and 133 times more than wheat. Moreover, no insect will attack it, and it is always immune from diseases of any kind.

Convinced.

"Do you think a college education helps a man in business?"

"Sure. I've had two college boys here workin' for me durin' the past year, and I was afraid to discharge either one of 'em for fear they'd find fault with my grammar when I done it."—Chicago Record-Herald.

ENTERTAINED FRIENDS AT DAYTONA BEACH.

Mr. and Mrs. Robert Johnston, of Mankato, Minn., entertained at Daytona Beach Saturday afternoon and evening. Some fifteen ladies were entertained at tea during the afternoon, and a delightful social time was spent. The gentlemen were entertained with a six o'clock dinner. Eight covers were laid. Cards were enjoyed after dinner. Mr. and Mrs. Johnston leave Thursday on their return north, stopping at places of interest, and expect to reach Mankato by April 1. The afternoon and evening was in the nature of a farewell for the season to their many friends here. Mr. Johnston is engineer on the Chicago & Northwestern Railroad, which position he will have held thirty-eight years June 1.

When Silence Is Deadly.

Silence is commonly the slow poison used by those who mean to murder love. There is nothing violent about it. No shock is given. Hope is not abruptly strangled, but merely dreams of evil and fights with gradually stifling shadows. When the last convulsions come they are not terrific. The frame has been weakened for dissolution. Love dies like natural decay. It seems the kindest way of doing a cruel thing.—George Meredith.

Rubbing It In.

CLOSE CALL TO DEATH IN SURF THIS MORNING.

PARTY OF BATHERS CAUGHT IN UNDERTOW WERE WITH DIFFICULTY SAVED FROM DROWNING.

This morning at about 11 o'clock, a party of bathers got beyond their depth, or were caught in the undertow in the surf, near Keating's Pavilion, at Daytona Beach, and were with difficulty rescued by the onlookers and other bathers.

At first their cries for help were disregarded, not being recognized as such, by the bystanders and others thinking they merely playing, but as they continued to drift farther from shore, it was realized that they were in real distress and steps were taken to save them.

A couple of lines were secured and one or more men carried them out to the struggling party, which consisted of three ladies and their escorts.

Others formed a living line to the surf to assist those further out and finally the helpless bathers were reached and brought safely to the shore, two of the party being almost exhausted by the battle with the waves.

As nearly as could be learned all were winter visitors on the peninsula, the ladies being a Miss Overstreet and a Miss Black and one of the gentlemen bearing the name of Parker.

While the beach is the safest in the world, it is never wise to venture far from shore when the tide is running out, as a strong undertow is often created at that time.

C. W. Brown, who recently moved to Kingston with his family, last week opened a grocery business in L. G. Lyman's store building, corner of Ridgewood avenue and Main street.

The frame building most recently occupied by the Billings Bakery and located on the property, on South Beach street, now owned by Thos. H. White, is being demolished.
